

2021-2022 Parent Compact

We are committed to being good neighbors by respecting our own property and the property of others.

Respecting our property means that TEACH families will:

- Keep our grounds clean and safe
- Keep our buildings clean and safe
- Drive cautiously and courteously while on school property
- Park only in designated areas
- Follow the school's arrival and dismissal procedures and direction of the staff
- Contribute to school improvements

Respecting the property of others means TEACH families will:

- Contribute to the cleanliness of the surrounding areas by never littering
- Follow all traffic laws and city ordinances
- Park only in approved spaces, never blocking driveways or parking in the surrounding neighborhoods where permission has not been granted
- Contribute to the beautification of the school and property so that it is something we are all proud of

We are good neighbors by establishing and maintaining a positive partnership with neighboring homes and businesses where we support and respect each other at all times.

We are good neighbors by actively working together for the good of the community and by respectfully communicating concerns where solutions are determined quickly, calmly, and together.
